

How do clinicians use ANDHII?

- Generate PDF note templates that can be copied or uploaded directly into an EHR
- Track nutrition care practice patterns and patient outcomes to gain insight on the effect of nutrition interventions in the real-world setting
- Analyze patient data using patient reports pulled from ANDHII
- Create graphs of patient trends to present to patient themselves or leadership
- Support research or quality improvement initiatives in the clinical setting
- Incorporate standardized Nutrition Care Process Terminology (NCPT) into medical documentation

What is the benefit to using ANDHII?

- Contribute to the growing body of evidence for the effectiveness of medical nutrition therapy in numerous patient populations
- Track patient progress longitudinally to demonstrate the effectiveness of nutrition interventions
- Collect automatically de-identified patient information, as ANDHII has safeguards that prevents entering identifiable information
- Quickly search and select NCPT to promote the use of standardized terminology in medical documentation
- Improve efficiency utilizing ANDHII's suggested nutrition diagnoses based on included assessment data
- Strengthen ADIME documentation skills
- Access from any device with internet connection
- Access free of charge for any CDR-credentialed practitioner or Academy member

What are clinicians saying?

"I'm a RDN in primary care at a physician's office –and I love ANDHII! It is easy to use and it's free! I've been using ANDHII as my charting platform for the past several years and I simply copy and paste each note into our company's Electronic Health Record (EHR). ANDHII has transformed my documentation in patients' medical records into top notch professional assessments. I like how organized and computerized my entries look, and ANDHII uses the Nutrition Care Process which makes all of my notes uniform and thorough. It's a bonus that ANDHII saves time, too. After just a couple of weeks, I found that I was spending less time on charting than ever before. Thanks to the drop down menus and assessment prompts, the process is streamlined and efficient. I highly recommend ANDHII for all RD/RDN's!"

—Joanne Talley, RDN, LD, CDE
